CINCINNATI, TUESDAY, MAY 10.

THINGS GO BY TURNS.

BY ROBERT SOUTHWELL, The lopped free in time may grow again,
Most naked plants renew both fruit and flower;
The sorriest wight may find release of pain,
The driest soil satks in some noistening shower;
Time; cost by turns, and chances change by course.
From foul to fair, from botter hap to worse.

The sen of Fortune doth not ever flow;
She draws her favors to the lowest ebb;
Ber fides have equal times to come and go;
Her loom doth weave the fine and coarsest web;
No joy so great but runnell to an end,
No hap so hard but may in time amend.

Not always full of loaf, nor ever Spring, Not endless night, yet not elernal day; The saddest birds a ceason find to sing; The reighest storm a coim may soon allay. Thus, with succeeding turns, God tempereth all, That man may hope to rise, yet fear to full.

A chance may win that by mischence was lest;
That not that holds no great, takes little fish;
In some things all, in all things none are cross'd.
Few all they need, but none have all they with.
Limingsied toys here to no man befall;
Who least, hath some; who most, hath never all.

The difficulties between our government and that of Paraguay, which it was supposed would lead to a war, have been amicably adjusted by our Ambassador and President Lopez. Billy Bowlegs, the old leader and Chief of

the Seminoles, died on the 11th ult. Thus has passed away one who has been a terror to the settlers of Florida, and one of the greatest chiefs and Indian warriors of the present day. The famous anti-rent cases have finally been decided by the New York Court of Appeals in favor of the landlords. Tens of thousands of dollars, and many human lives, have thus been

vainly sacrificed. Saturday afternoon a freight car loaded with hemp took fire on the Frankfort railroad, near Jericho, from a spark from the locomotive, and burnt to the ground. The wood-work of the road near it was consumed.

Solouque, the ex-emperor of Hayti, has been swindled out of all his ill-gotten wealth, by his prime minister and favorite, and is thus reduced to poverty; while the false minister is living gaily at Paris.

All the political prophets of Europe seem to a unanimously agreed that a war between France and Austria, which will, of course, spread indefinitely, can not be delayed longer than till July next.

The king of Bonny, (Africa,) who is now traveling in England, is said to look with long-ing eyes upon the fat, plump and rosy children of that country. They fairly make his cannibalistic mouth water. A Wool-growers' and Manufacturers' Con-

vention is called to meet in Cleveland, on the 4th day of August next, for the purpose of exhibiting the different styles and grades of wool and for mutual interchange of opinions and practical hints. The following scene occurred at a theatre in Boston: First actor (firing a pistol): Unnat-ural son, die by my hand!" (The pistol mis-

ses.) Second actor, (falling on the stage): "It is true the pistol missed fire, O, my father, but I die in obedience to your paternal wish." "Independent," published at Pine aney of her spirits. Bluff, Arkansas, says that "five men were recently hung by the citizens of Brownsville.

The editor of the Louisville Courier, in disconrising upon the clergy, says "they are not more addicted to dissipation than the men of other professions. A few of the Kalloch type take gin toddies and liberties with females, but the great majority of them are as good as law-yers and doctors. If you want a true Chris-tian, marry an editor."

We have read the report of Dr. Fowlkes of the Southern Pacific Railroad. He congratulates the stockholders on the brightening pros-pects of the enterprise. They looked gloomy enough for a time, but the fondest hopes are so far realized, thanks to the indomitable energy of Dr. Fowlkes. There are no hostile interests now. All parties are agreed to put their shoulders to the wheel. This is just as it ought to be. The road will be built. crisis it has passed through will be a benefit instead of an injury. From fifty to a hundred miles more will be built this year.—Louisville

A PIKE's PEAKER'S OUTFIT .- A gentleman who has "traveled all the way," assures us that the following is all that is necessary to secure a safe arrival at the new El Dorado-Pike's Peak: "100 lbs. of flour, 2 bbls. of whisky; 50 ths. of bacon, 49 gallons of whisky 100 ths. of venison, 18 demijohns of whisky 2 boxes of dried herrings, 1 brl. of whisky; 1 brl. of pickles, % brl. of whisky; 12 quart mugs. A little more whisky may be necessary, but the other articles will hold out if the man

is not a tromendous glutton,"—Exchange.

Another gentleman (?) who has "travelled all the way," writes to a friend that all the outfit necessary is a revolver and a tooth-pick. The Toledo Blade encouragingly refers to the future as follows: "The manufacturing interests of the country are generally perous, and there is a demand for the ductions of all the mills and shops, which makes our cities lively with the music of the spindles, and the chorus of the ponderous machinery, as with heavy clang it shapes the crude substance into varied forms of beauty and utility. The signs of war in Europe are regarded as favorable to the pros-perity of this country. Should that war progress, and the promise of the crops here be realized, the next two years may well be looked to as a period fraught with richest store for our people. Havoc, blood-shed, rapine and disaster there-terrible as they are and much as they are to be de-plored -- would in innumerable ways tend to our advantage. If the multitudes of Europe are called off from the active duties of producers, marched to the battle fields and made consumers of the productions of others, the harvest will be ours. The United States will be the only neutral granary from which to draw the supplies for the immense forces which are marshalled in European wars. And should the war prove a protracted one, its effect will be to destroy confidence in the security of prop-crty in that quarter of the world, the result of which would be to induce capitalists there to send their surplus here for investment. In looking over the whole ground we are led to the conclusion that a new second restraction.

An unknown man was run over and killed by a train on the P. T. M. & C. R. R. near Chiengo, on Friday last. He was five feet ten inches high, had brown hair, dressed in black frock coat, black satin vest, drab pants, blue overalls, and a white shirt marked I. H. D.

The comet which we mentioned the other day as observed at the Michigan University has been seen at the Harvard and Hamilton College Observatories. Whether the comet will become visible to the naked eye, whether it is approaching earth or sun, and whether it is the reappearance of a comet formerly noticed or a new one, the observations of a few days more will probably decide. Taue ELOQUENCE .- A young Irish girl, who The warlike news by the Niagara, on Thurs-

There is a comprehensiveness and intensity of expression in this simple sentence to which we have seldom, ever, seen a parallel. Such a history of hardheartedness and depravity was surely never before put on record.

The anniversary of the American Tract Society will be held at the Academy of Music, New York, to-morrow, (Wednesday.) The preliminaries of the gathering look warlike, and the prospect is that a struggle among the different sets of brethren will occur, to who shall handle the funds. A general muss has already developed itself, which the Her-ald terms the most entertaining belligerent topic of the day, and the Independent looks upon the affair as an "annual disgrace."
